**ARAUCO.**  
Growing the Future

## ARAUCO'S Sustainable Practices

- 100% of wood from certified, sustainably managed plantation forests.
- No use of native forests.
- Certified to strict CERTFOR forest management standards that are endorsed by international non-profit group PEFC.
- Respect for the rights of indigenous peoples.
- No genetically modified trees.
- Verified legal origin.
- USDA Lacey Act compliant.
- Mills powered by carbon neutral, biomass-generated green power.

## **ARAUCO** in Australia

ARAUCO's Sydney, Australia office is your convenient, single point-of-contact for ARAUCO Lumber and Millwork Products.

In 2009, ARAUCO established a sales office in Sydney to promote and sell ARAUCO's Lumber, Millwork and Panel products throughout Australia and New Zealand. The new office demonstrates ARAUCO's long term commitment to the Australasian market and provides exceptional customer service, product support and logistics throughout the region.

ARAUCO supplies a wide variety of quality Lumber, Millwork, and Panel products to meet the needs of the furniture, packaging, construction, and renovating industries in Australia and New Zealand. With shipments into all main ports of entry, ARAUCO products are readily available and can be delivered reliably to any customer location.

## **ARAUCO**

### Lumber & Millwork Products

ARAUCO Lumber and Millwork products are available throughout Australia and New Zealand in a wide variety of finger-joint and solid moulding and reveals, as well as lumber, boards, and laminated structural products. ARAUCO is the brand of choice for every project.

## Sustainability

ARAUCO Lumber and Millwork products are made from wood grown on long-established, certified forest plantations. No native forest wood or genetically modified trees are used to produce any ARAUCO Lumber and Millwork products.

The forests that provide the wood for ARAUCO Lumber and Millwork products are certified as being in compliance with CERTFOR, Chile's strict national standard for sustainable forest management.

Developed by a non-profit, non-governmental organization, with expert technical assistance from the Chilean Forestry Institute, the CERTFOR standard is endorsed by the international Programme for the Endorsement of Forest Certification Schemes (PEFC).

CERTFOR is your assurance that ARAUCO Lumber and Millwork products originate in plantations that are managed in an environmentally appropriate and socially responsible manner.

In addition, ARAUCO has recently completed its first-ever carbon footprint assessment of its operations in Chile, Brazil and Argentina. ARAUCO's carbon footprint is at the low end of those reported by the forest products industry, and the company is on a path to further reduce its carbon footprint in the years ahead.

## Quality

ARAUCO Lumber and Millwork products are precision milled to ARAUCO's rigorous standards for quality and reliable performance, meeting and exceeding Aus/NZ standards.

## Selection

ARAUCO Lumber and Millwork products are available throughout Australia and New Zealand in a wide variety of finger-joint and solid moulding and reveals, as well as lumber, boards, and laminated structural products. ARAUCO is the brand of choice for every project.

# Lumber & Millwork Products

- Finger Joint Moulding and Reveals
- Solid Moulding and Reveals
- Solid Pine Mill Run Rough Lumber
- Finger Joint Pine Blanks
- Finger Joint Pine Fascia Boards
- Finger Joint Pine Laminated Posts
- Solid Pine Lining Boards
- Finger Joint Pine Laminated Structural Products

## In order to maximize product performance:

- Keep products dry at all times. Store under cover and above ground on a clean, level surface.
- Coat products according to the paint manufacturer's recommendations. For best results, an initial coat with an oil based primer is recommended.
- Follow good trade practices by using sharp cutting tools and nailing away from the tip of the profile.

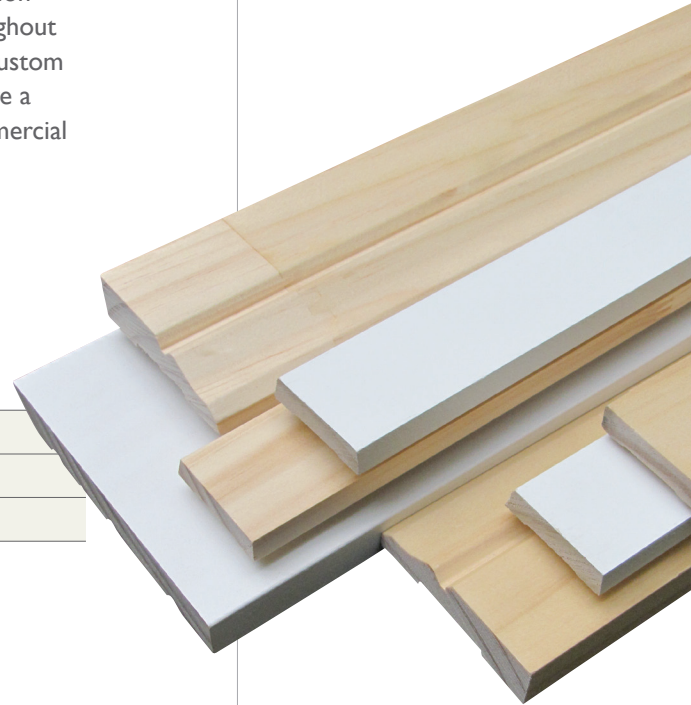

## Finger Joint Moulding and Reveals

Available throughout Australia and New Zealand in a wide variety of standard and custom profiles, TruChoice™ Arauco Solid Moulding and Reveals are the best choice for trim with a natural or stained appearance.

### Product Features

- Made from 100% Radiata pine.
- Natural light color.
- Smooth, knot-free quality.
- Uniform acceptance of stain .
- Consistently straight.
- Untreated or H3 treated with a well known, high performance chemical.

Thicknesses	From 11 up to 40mm
Widths	From 31 up to 140mm
Lengths	Up to 4.88m

## Solid Pine Mill Run Rough Lumber

Solid Pine Mill Run Rough Lumber is precision milled for high quality and is consistently straight and uniform.

### Product Features

- Made from 100% Radiata pine.
- Consistently straight and uniform.
- Furniture knot grade available.

Thicknesses	From 16 up to 21mm
Width	145mm
Lengths	Up to 4.88m

## Finger Joint Pine Blanks

Finger Joint Pine Blanks are precision milled for high quality and are consistently straight and uniform.

### Product Features

- Made from high quality Radiata pine.
- Available with Interior and Exterior Approved Glue (PVA-D4, EPI, UREA, RESORCINOL).
- Structural F7 available according to AS 5068 - 2006.

Thicknesses	From 25 up to 42mm
Widths	From 40 up to 195mm
Lengths	Up to 7.2m

## Finger Joint Pine Fascia Boards

Finger Joint Pine Fascia Boards are made from Radiata pine for a consistently straight, smooth product. Available throughout Australia and New Zealand in a wide variety of finishes and sizes, ARAUCO Finger Joint Pine Fascia Boards are the best choice for exterior trim applications.

### Product Features

- Available Raw or Oil - Based primed.
- Consistently straight.
- Smooth, sanded finish.
- FJ edge-glued with fingers on the edge, not the face.
- LOSP treatment available for exterior applications.
- Untreated or H3 treated with a well known, high performance chemical.

Thicknesses	From 18 up to 40mm
Widths	Custom requirement
Lengths	Up to 7.2m

## Finger Joint Pine Laminated Posts

Finger-Joint Pine Laminated Posts are made from Radiata pine, selected for its appearance and strength, and are precision engineered to provide maximum stability and performance.

### Product Features

- Available Finishes - Raw and Oil - Based Primed.
- Available with Interior Approved Glue for furniture use (PVA-D4).
- Available with Exterior, Structural Approved Glue (UREA, RESORCINOL).
- F7 structural grade available, according to AS/NZS 4063.
- Untreated or H3 treated with a well known, high performance chemical.

Sizes	88x88, 90x90, 115x115 and 135x135mm
Lengths	Up to 7.2m

## Solid Pine Lining Boards

Solid Pine Lining Boards are made from 100% Radiata pine for a smooth, uniform appearance and are precision milled for consistent high quality. Solid Pine Lining Boards are a great choice for lining interior walls and ceilings, and are also available in tight knot furniture grade.

### Product Features

- Made from 100% Radiata pine.
- Tight knot furniture grade available.
- Untreated or H3 treated with a well - known, high performance chemical.

Widths	From 138mm up to customer requirement
Lengths	Up to 7.2m

**ARAUCO®**  
Growing the Future

“To be a global leader in the  
development of sustainable  
forest products”

Growing  
the Future

# Growing the Future

## **ARAUCO** Around the World

For more than 40 years, ARAUCO has been driven forward by its vision of being a global leader in sustainable forest products. During this time, we have evolved into one of the most respected forestry companies in the world, not only for the size and health of our plantation forests, the quality of our products, and superior customer service, but for our technical innovation, environmental responsibility and social commitment as well.

Our natural resources are the cornerstone of our sustainability. Through Bioforest, ARAUCO's scientific and technological research center, we apply leading-edge biotechnology to the development of new ways to increase the quality, productivity and performance of our forest plantations, as well as conservation and protection strategies to more than 800,000 acres of native forest within our forest holdings.

The products and services provided by ARAUCO's forestry, wood pulp, sawn timber, panels, and energy business areas embody the company's commitment to sustainable resource management. ARAUCO employs certified production processes that have minimal environmental impact to deliver a broad range of high quality products, meeting the needs of customers in more than 75 countries.

By carefully analyzing market trends, ARAUCO is able to anticipate market needs and have the right mix of products available for its customers.

3 Panel mills

#### Uruguay

63,000 hectares of Plantation Forests

Through its sales offices in Argentina, Australia, Brazil, Chile, China, Colombia, Holland, Japan, Mexico, Peru and the United States, and sales agents in many other countries, ARAUCO delivers a superior level of customer service. This sales network, together with the company's state-of-the-art global logistics system covering transportation, loading/unloading, storage and distribution, has earned ARAUCO a reputation for consistent availability and timely delivery the world over.

ARAUCO's success is based on satisfying our customers with quality products and services while balancing the company's needs with those of our employees, the environment, and the people who live near our facilities and plantations. This is the starting point for the responsible and efficient management of our natural resources, the occupational health and safety of our workers and our active contribution to social development and welfare in the communities in which we operate.
