

From the world wide leaders in wood protection, Tanalised® Ecowood is a unique treated wood product designed to meet today's consumer demands while providing traditional Tanalised® durability against wood's natural enemies and the elements.

Tanalised® Ecowood incorporates a new generation preservative system accepted in over 20 countries worldwide that provides long term protection while maintaining the natural appeal and versatility of wood.

Koppers pine product range is also available in Ecowood. Products are treated with Tanalith® E to hazard levels H3 - H5.

For further information on this product, visit www.tanalised.com.

Disposal of Offcuts

Preservative treated Koppers products are protected from termite attack and decay and present no hazard to humans, domestic animals or plants. Offcuts can be disposed of as domestic waste or at your local tip. DO NOT BURN.
